Governor Will Not Sign Lake Park Bill

Commissioners To Seek
Meeting With Kerner
For Partial Allocation

(Special From Springfield)

Gov. Otto Kerner announced this morning that his press conference in the state house that he would not sign the \$3,500,000 appropriation bill for development of the lake park as a 7773-acre state park.

H. D. Karandjeff, local banker and chairman of the state park commission, told the Press-Record this morning that he and other commissioners are now in the process of meeting with Rep. Lloyd "Curry" Harris to arrange a conference at Springfield with Gov. Kerner.

"We're not giving up," Karandjeff said, "and we have the funds to live up to the bill, but we are not actually voting the bill that some funds will be made available at least to start the project."

Loss of Funds

At the press conference in his office in the capitol, Gov. Kerner told a Press-Record reporter and other newsmen that a number of other special appropriations bills would be unsigned because of a lack of funds.

Clarification of the governor's announcement is being sought since state statutes and the state constitution point out a bill becomes law only after being presented to the governor, unless he returns the bill within the 10-day period to either the legislature or the state's attorney.

The exact date the lake park bill went to the governor is not known. Most of the 100 bills adopted during the last minutes of the legislative session have not yet reached the governor's desk, it was said.

Concerning the Horseshoe Lake state park bill, Gov. Kerner said, "I know it's a wonderful project, but we just don't have the money at this time."

"I told the commissioners during a conference in my office several months ago that I felt the state should give the state its largest park, but I'm not signing the bill at this time because of the state's financial problems."

The governor indicated the local area lake project might be given a high priority rating.

Parked Auto Looted Clothing in Madison

Clothing valued at \$200 was stolen from a parked auto in Madison Tuesday night or Wednesday morning.

The loss was reported to Madison police R. S. S. Wimberly. Cole, who was visiting Gerald Purcell of 1633 Sixth street. Sheets said he parked his car in front of the Purcell home Tuesday night and discovered the break-in yesterday morning. He said entry was gained by breaking the left window.

Missing articles include five or six shirts, three jackets, 12 pairs of pants, 12 pairs of pajamas, bath clothes and several blouses, sweaters and other items.

Abraham Katz, 76, Lee Shop Owner, Dies Suddenly

Abraham Katz, 76, president of the Lee Shops women's clothing store chain, died shortly before noon yesterday in Jewish Hospital, St. Louis, where he was taken Monday after he was struck with a cerebral hemorrhage about 3 p.m. at the Elks Lodge, 1322 Niedringhaus avenue.

Mr. Katz opened the Lee Shop in 1931, and had since expanded the chain to four stores with headquarters in Granite City. He also was owner of two apartment buildings in St. Louis.

Born in Europe, Mr. Katz came to Granite City in 1941, when he moved to St. Louis. He was active in local civic affairs, and was a past chairman of the Tri-City United Jewish Appeal.

Mr. Katz was a charter member of the Litchfield Elks Lodge, and the American Legion and the Scottish Rite Bodie Valley, both of East St. Louis. He was a thirty-second degree Mason and a member of B'nai B'rith of Granite City.

Surviving are two sons, Stephen H. Katz and Milton S. Katz, who operate the stores; three sisters, Mrs. John Walf, Mrs. Betty Walf, and Mrs. Pauline Silver, all of St. Louis, and five grandchildren. His wife, Lena, died last August.

The body will lie in state from 8 to 10 tonight at the Louis Funeral home. Funeral arrangements are given in a obituary notice elsewhere in this issue.

Reiske Renamed Head Of Trades Council

Edwin Reiske was renamed to his third consecutive term as president of the Tri-City Trades and Labor Council, elected at a meeting last night at the Laber Temple attended by over 100 members of the council.

The new president, elected at 7 p.m. in the board of offices at 1707 Fourth street.

The tentative budget and figures for the district's estimated income for 1961-62 will remain on public display at the board offices until the date.

Following the tentative budget figures this week, the board also approved estimated income figures of \$1,147,541, a figure which is \$10,000 above the \$1,103,250 due to current deficits in the educational and building funds.

Salary Increases

The tentative educational fund budget is down \$610 from last year, with the cut reflected by the addition of new employees.

However, salary increases for principals, custodians and office personnel prevented a greater cut.

The proposed single proposed budget cut came in the building fund, where no money is proposed for capital outlay. Last

Madison School Budget Cut; Levy Up

Tentative Figures
Show \$437,000 Drop;
\$42,251 Levy Boost

A tentative budget of \$1,091,543 for the 1961-62 school year was adopted Tuesday night by the Madison school board. The temporary figure is \$37,449 less than the final budget for 1960-61, due mainly to a \$316,173 drop in funds allocated for new construction and a decrease in interest payments on the district's bonded debt, amounting to almost \$60,000.

At the same meeting a 1961 levy of \$686,447 was proposed, an increase of \$42,251 over the 1960 levy of \$644,196. Adoption of the proposed levy by the board would increase the district's property tax assessment to \$1,021 1/2 per \$100 of assessed valuation to an estimated \$2,13.

The proposed higher levy would be reflected in a 10 cent increase for the municipal retirement, building and bonds and interest fund. The Madison district currently has a minimum rate of \$150 and transportation (\$0.02).

Final Hearing Aug. 22

Sixty of Schools Wendell Brown said he does not expect any major changes in the tentative figures when the board meets again for a public hearing at 7 p.m. on Aug. 22 in the board of offices at 1707 Fourth street.

Madison Man, 24, Dies When Sewer Ditch Collapses

A Madison man was killed yesterday about 4:30 p.m. when walls of a 13-foot-deep sewer ditch he was working in collapsed and buried him. The accident occurred at Elwynn, a south side residential area of St. Louis.

Killed was Steve Anthony Gibson, 23, of 2000 Central avenue, Cheverly, an addition to Madison, and a fellow worker and lifelong friend of Donald Nance, 30, of Donmire, Mo.

Gibson, a county

coroner, said

GIBSON

the cave-in happened 200 yards north of the 13th Street right of way, where the two men were laying an eight-inch pipe in five-foot sections and back-filling the ditch. He described the ditch as being 13 feet wide, 50 feet long and gradually sloping a depth of 13 feet. The ditch was being prepared for a true sewer line to serve the Pleasant Grove subdivision, now under development.

2 Others Injured

Two others were

injured

in a second cave-

in which occurred during rescue attempts. They were Nance's brother, Manuel, and William Richmond, 1817 Alton avenue, Madison, who was the job foreman.

Both workers were taken to Clay City Hospital, where they were treated and released.

Richmond told the Press-Rec-

ord that he and six others had been working on the ditch for about two weeks. He said he and his crew and Gibson were the only two men in the ditch at the time of the cave-in and the other

Steel Demand Increases

GC Steel Earnings Up During Second Quarter

Granite City Steel Co. earned \$2,400,000, or 64 cents per share, in the second quarter of this year, as compared with \$1,910,000, or 44 cents per share, in the first quarter. Nicholas P. Vassil, chairman of the board and president, reported to stockholders yesterday.

"The pickup in demand for flat rolled steel products developed in the first quarter of 1961," Vassil said, "accelerated in the second and is reflected in our improved performance."

Vassil pointed out that "profit margins moved up with volume. The company earned 7.4% on second quarter sales of \$35,124,000, in the second quarter of 1960, when Granite City Steel was operating at approximately half load. Earnings amounted to \$3,331,000, or 77 cents a share, based on the present number of 4,343,000 shares of common stock outstanding.

Reversal of Decline

"The gain in earnings this year and half compares with a loss in the second quarter and 1961 is showing a reversal of the generally declining trend that a market 1960 opened with. Earnings for the first half were \$4,588,000, or \$1.05 per common share, as compared with first-half earnings of \$7,645,000, or \$1.77 per common share."

requested by the people and they think the signs will solve the problem.

"That's why there are so many stop signs in Granite City.

"I don't think any aldermen will turn down a stop sign request," Schmitz continued.

"The idea is to slow down traffic and I've got speed problems in my ward. That's what the people want."

Alderman Joseph Cuvier commented the survey might prove to be good for the city. "We can follow the recommendations and that would be good for the city," he said.

A suggestion was made by Alderman Walter Noland who was present to restrain the city from hospitalizing Mayor Davison. "Run the survey only in the areas where there are complaints," he said.

With Shahian's request for a survey of the National-St. Clair avenue intersection, the city survey proposal was dropped.

A suggestion was made by Alderman Walter Noland who was present to restrain the city from hospitalizing Mayor Davison. "Run the survey only in the areas where there are complaints," he said.

Meyer next turned to one-way traffic and requests for the northbound restriction on Benton street to be extended from Adams street to Clark street.

He pointed out resident along Adams street and Cleveland street would benefit if the restriction would "dump" more traffic on their streets.

An alternate suggestion he proposed was to extend the one-way traffic restriction from Adams street to Clark street.

Meyer included in his recommendation for study Adams street, Benton, Cleveland, Delmar, Edison, State Grand, Iowa and Madison in the residential areas.

Meyer pointed out bottlenecks on narrow streets and also the bus turning point at 27th and Benton streets.

Objections Raised

However, objections were raised by Alderman Edmund Barrioski, who said he had requested a return to one-way traffic on State street, southbound from Adams street to Clark street, but had received no complaints. He urged the council to proceed with authorization. Alderman Samuel Whitmer added that he had received no complaints on State street, but the traffic had increased tremendously since two-way traffic was implemented.

Resident Benton street were permitted to speak, and spoke in favor of the extension of one-way traffic and a four-way stop at 25th and Benton street.

Meyer withdrew his proposal for one-side parking restrictions, and the council voted 4 to 3 to approve the stop signs on Benton, State, Clark and Adams streets at 25th and Benton streets.

Meyer said a public hearing on the issue would be held by the Traffic committee in the near future and announcement would be made of the time, date, and place.

Inter-City League All-Stars Square Off Sunday

Red Division Favored To End Blues' Streak At 3 Straight; Game At Troy

After losing three straight and six of the last seven Inter-City Baseball League All-Star clashes, the Red division will be favored to break the 24th Annual mid-season classic wide open Sunday at Troy's Moonlight Field at 2:30 p.m.

Sporting two .500, two .400, not-to-often 'underdog' Blues and four .300 batters, the home team are Mercer's Gary Burnette (.500), Don McTeer, Mercer - RF - Howard Elberton, Sacred Heart; Bill Mihelic, Mercer - CF - W. Ross, Collinville; Don Crnkovich, White City - SS - Rich Horner, Moose; Gary Burnette, Mercer - SS - Larry McCaskey, Moose; Gary Burnette, Mercer - 1B - 2B - Harold Scheibl, Collinville; Bob Plain, White City - 1B - Chuck Jones, Collinville; John Crnkovich, McTeer - C - - - - Don Bruce, Moose; Jack Buente, Mercer - P - - - - Bob Vetter, Collinville; or Doug Edwards, McTeer -

The top three teams in both divisions dominate the all-star rosters and make up the starting teams for both squads. Counting Buente, Blue division leader Mercer will have four starters, while the Blues will offer two starters.

Miller, who is at the end of his rope, and for the second straight year, indicated that McCleary's Doug Edwards might get the nod over Buente as the starting pitcher. Edwards has posted a 6-1 record for himself in the first half of the season.

Soldom Underdogs

Merger Old Miller will continue to his own right, handing Miller just one win for the Blue division. Buente, 7-1 for the campaign, will be backed by a starting unit that offers a respectable .378 team batting average. Leading hitters for the season:

The Downstate Fisherman

By PETE BROWN

(Compiled by the Southern Illinois University Information Service from area reporters.)

Basin fishermen are fond of inverted logic, perhaps, because they catch so frequently resists any other kind, so the word around the fraternity these days is that they have been beaten because it can't get any worse."

Little improvement is evident at Horseshoe Lake where crappie fishing is slow for average anglers, but not for the pros. The bars are out on the Ohio near Mount City, so the week ahead should see action there and below down 53.

Crappie fishing is having a tough time of it. Experienced summer fishermen are taking a few, and surface fishing at night with slow jigs is the best bet. But for the most part the picture is discouraging.

Crappling fishing is "good to go" in the first few weeks at Grassy Hill, and the fishers there are seeing some of the best fishing in the state. The fisherman is having a tough time of it. Experienced summer fishermen are taking a few, and surface fishing at night with slow jigs is the best bet. But for the most part the picture is discouraging.

Jitterbugging at night, Bill Morris, of Marion, and George West of Marion have been taking six to 10 keepers per outing. Top catches: Martin Ryan, Collinville, five; a one-and-one-quarter pounds (first worm); Marvin Meier, Marion, six; seven pounder (Bomber); Charlie Greathouse, Mt. Vernon, five and one-quarter pounds (Bomber); Bill Guff, Willisville, six and one-quarter pound (black worm); Bill Manning, East St. Louis, one pounder; Bill Stoeber, Bill Lips, Stoeber, six pounds (black worm).

Crappie fishing remains in drags condition and most lake oldtimers and Refuge officials are frankly wondering if it's going to clear this summer. Bass fishing is clear.

Channel catfish have started a run at Lake Murphyshoro, taking some of the sting out of a slow bluegill week. Ervin Franklin, of Marion, has a 12-pounder and four two-pounders, using cheese; Guy Bandy, DeSoto and Jim Murphy, Collinville, have a 12-pounder each. Bluegill have been caught on crappie, Mike Heiner, Murphyshoro, boasted a six pounder and five two-pounders on crappie and R. W. Hartman, Carterville, used cut bait to hook a nine pounder and four at two.

EDITORIAL

Editor's note: The following guest editorial was written by Oruc Bulent Nayman, son of a retired Turkish army officer and ex-newspaperman, who is currently on the news staff of the Press-Record. Nayman, who is about two years of graduate study under Fullbright and Rotman, International Scholastic at Southern Illinois University, gives his observation of newspapers here and in Turkey. Himself a reserve officer with service in Korea, Nayman is a graduate of the University of Ankara, a former teacher and employee of the United States Information Service, and plans to teach journalism when he returns to Turkey.

Fishing In The China Sea . . .

Let me tell you a story before we discuss the importance of the weekly press.

Years ago my father had a weekly in my hometown, Antalya, a small town on the Mediterranean sea coast with 30,000 population. It was a tiny, four page tabloid, desperately attempting to cover the needs and necessities of our fast growing resort town and also devoted to the local affairs. Daddy was the only man who worked for the paper. He was editor, reporter, manager, columnist—literally he was doing everything by himself. I was in high school at the time, a volunteer apprentice of my father, and was eagerly trying to understand what a paper is. Our tiny one was coming out every Saturday but, alas, those were the days when I will never forget . . .

We did not have a press of our own in order to print a paper, so we had to go to a press at a nearby town. The printer who was printing ours had a weekly of his own at the same time. What a man he was! With a big press, lots of money, but no understanding and no culture at all. He was sabotaging our paper deliberately.

My father was trying his best to cover everything about our town, but the printer would print different stories of his own. He did not want to change the types which he set for his own paper. So we would have a story about the "British Royal Family" instead of a write-up about the new orange crop (my hometown is in the orange growing part of Turkey); or an important news story about the town's hospital would change places with a story on "Fishing in the China Sea".

With our paper causing trouble, we could not find our news and our money had to begin with the Mediterranean Saturday mornings. How many times my father tried to explain to this man that we wanted our materials printed but the man could not understand or did not want to. After a while daddy said the best way to get rid of a paper for this man was to let him quit the business. I never saw him in such grim sorrow in my life on the day which he quit the paper. He was a re-

tired army officer but was very well aware of the importance of weeklies in our country.

Since I came to this country, my first impression was the enormous achievement of weeklies and their contribution to small towns. This idea is rather far away to most of the weekly editors in my country yet. They still prefer to run hand-out, ready stories of foreign propaganda agencies, thus spending no effort to cover the news in their own towns.

It easily could be said that this country is a heaven for the weekly press. Since I came to Granite City, I've had a chance to observe this fact on the spot. I can see very well what are the tremendous benefits of a weekly paper to the community and also to democracy.

The children who went to take a picture of a group of youngsters on a summer recreation program. With a childish pride they were telling us how many times they appeared in the paper. As well as these children, the adults, their moms, dads, sisters, brothers make the news for this paper. This is not a matter of happenings in the news, but the people's attitude, the way they live. I believe this is a way of democracy. The people of all the walks of life, their good deeds as well as bad, are important to the members of this community. To know each other's troubles is as important as to know each other's happiness. This brings the people closer, ties them, gives them a lift, a mighty spirit in the member of this community, of this town.

My father could not explain this very fact to the printer at that time. Now, I consider my mission will be to explain this very important fact to the new generation of journalists of Turkey. When a small town weekly will recognize the importance of news about the forming of the "Fishing in the China Sea" in my country, I believe we will be much happier than before and will walk by ourselves on the sunny grassroots.

For each 100 additional employees brought into a city, the average municipality gains 427 more people, 131 more households, 117 more workers, 100 other businesses, 187 more auto registrations, 393 more telephones, and three more retail stores, as well as a huge increase in retail spending.

Nothing is easier than the expenditure of public money. It does not appear to belong to anybody. The temptation is overwhelming to bestow it on somebody.

AD SOUGHT FOR SCHOOL FOR BLIND CHILDREN

How big are the hearts of our people here in Granite? The other day, a woman in a store asked me if I had a blind child.

I just happened to get into a conversation with a young lady whose woman's organization raises money for aiding a school for blind children.

These aren't ordinary blind children. They are also handicapped mentally or physically. I wrote to the newspaper of the town where the school is located. I just received a reply from one of the editors. He was very interested, so interested, in making a search, because the school was in a different town. It was founded by a dentist and his wife who also had a blind child.

There are to be 17 pupils who come from all parts of the country and are admitted according to merit. They need funds here.

Contributions may be sent to Hope School, 233 West Monroe Street, Granite City.

As I talked to the young lady, who said they ever run short on such small items as kleenex, I thought to myself that other companies might like to help with this worthy cause. God bless you if you do.

SEEKS SHADE TREES AT PLAYGROUND

To the Editor:

The playground may concern and the Board of Education of Granite City, Illinois.

We in the City Park have a park without shade. I stressed at the beginning how to landscape it and plant some trees that grow fast.

But we really don't get much with the supervision the Park Board now has. Of the few trees I have planted myself, the grass under has grown so that they really don't care if the money is not the problem with all the taxes the city gets.

Respectfully yours,

SIMON BLADA.

Changes In Social Security Law Outlined By Official

Changes in the social security law signed by President Kennedy June 30 directly affect about 600,000 persons aged 62 or older, giving them social security benefits for the first time. Increasing benefits already available to them, Ralph Brasher, manager of the East St. Louis social security office, said the new law makes the following changes:

Men now have an option of retiring at age 62 with lower benefits than those available at 65 and collecting higher benefits.

Widow's benefits are increased by about 10%.

Minimum of benefit under social security need to get benefits is lowered by the old law.

Under both the old and the new law, a beneficiary can earn \$1200 a year and receive all of his benefits under social security. The old law, though, required \$1 in benefits to be withheld for each \$2 earned from age 62 to 65, or \$1 for each \$1 earned over \$1500.

Under the new law, \$1 is withheld for each \$2 earned from age 62 if they choose just as men have been able to do since 1953. But workers who decide to take the benefits before age 65 can get less per month than they would if they waited until 65, Brasher said.

The social security taxes go up slightly beginning Jan. 1, 1962. Under the new provision, men can earn up to \$1500 and receive benefits as if they were 62 if they choose just as men have been able to do since 1953. But workers who decide to take the benefits before age 65 can get less per month than they would if they waited until 65, Brasher said.

To help finance the changes, the amendments call for an increase in the minimum benefit beginning Jan. 1, 1962. Employers and employees will each pay an additional one-eighth of one percent on wages up to \$1500 a year, a total of three and one-eighth percent of social security taxes.

Self-employed persons will pay an additional one-eighth of one percent on net earnings up to \$800 a year, instead of the former 4.5% rates.

The disability insurance program remains unchanged, Brasher said, except that workers with long-standing disabilities are given another year, until June 1, 1962, to file claims for benefits.

Some changes automatic. The same will increase in benefits for widows, and for those getting minimum benefits will now automatically before the Aug. 10 checks are mailed early in September. It will not be necessary, he said, for these persons to contact the social security office.

Some other people affected by the amendments to the law must apply for a new card and start again. Among them are older workers who formerly did not have enough credit for work to receive benefits. For example, workers between 62 and 65 who wish to retire now will receive benefits and dependent widowers or fathers.

These people should get in touch with their local social security office. Brasher said the social security office in East St. Louis is located at 433 Missouri avenue, Room 300, and an office is open at the city hall in Granite City on Fridays.

County Budget Cut May Be Necessary

The finance committee of the Madison county board of supervisors will begin the drawing up of a tentative 1961-62 budget on July 25, according to County Auditor John L. Pfeifer.

Drafting of the budget is expected to continue until Aug. 11, and the finance committee will then consider the costs of county offices and departments unless emergency legislation as enacted by the Illinois General Assembly is signed by Gov. George W. Romney.

The legislation would permit the investment of funds held in escrow by the county to actually tax paid under protest by firms and railroads — and Madison county could receive about \$100,000 more in escrow than some \$250,000 now held in escrow, according to County Treasurer Dan McGee.

Madison county is limited, as the result of a recent state supreme court decision, to a tax rate of 5.67 cents per \$100 assessed valuation, a rate which could not be met by the county without enough fund tax money for expenses in 1961-62.

If the present tax rate continues, the county could face a deficit of \$300,000 which could result by next July should the spending level for 1960-61 be maintained in 1961-62, officials anticipated.
